

# DUDE, WHERE'S MY GOALS?

*Hi there!*

Here is an easy checklist of where to find or set up your goals for your game at Caulfield Park. (Refer to the Caulfield Park fields map for ground numbers.)

## WHERE'S MY GOALS?

### U8 - U12 teams

- U8 – U12 games play on smaller fields. They use smaller goals than normal.
- If your team is on field 4 then nets will need to be put up on the permanent goals. Field 4 nets will be at the centre grey brick pavilion or may have been placed on the grounds next to the goals already in a big red bag.
- If your team is on fields 3, 5 or 6 then you will need to assemble the portable plastic goals (Samba goals), including putting the nets on the goals. For fields 3, 5 and 6 your goal pieces can be found at the centre grey brick pavilion. Jeremy should have them outside the pavilion for you.
- Both goals must be done at least 15 min prior to your teams kick off.
- All goal pieces and nets **MUST** be returned to where they came from at the end of the game, unless there is a game following yours. Please check before disassembling.

### U13 - U18 teams

- U13 – U18 games are played on normal fields with normal goals.
- Fields 3, 5, 6 nets and flags will be found in appropriately marked wheelie bins in the centre grey brick pavilion. Goals must be put up at least 30 min prior to your teams kick off.
- All flags and nets **MUST** be returned to where they came from at the end of the game, unless there is a game following yours. Please check before disassembling.

### All teams

- In some cases when you arrive at your game your nets will have been set up by previous parents. Your team may need to Disassemble them and return them after your game.
- Check the match day ground allocation list to see if your team needs to put nets up or down on the day. This list is sent to every Team Manager prior to the weekend. **It can also be found on Team App.**
- For parents that have done all of this before, you can help out the first timers. With a smile of course!

**Don't forget that NO PEGS are allowed on field 5, 6 or 7.**
